Rape 'No Crimes' Review

Draft Terms of Reference

1. Review of all rape crimes recorded in the 2012/13 financial year in Warwickshire and West Mercia.
2. Review all of the rape reports that were 'no crimed' during the same period to ensure they comply with the Home Office counting rules and crime recording standards.

Issues to Consider

Establish who will carry out the review in addition to the 3 Committee Members who have volunteered.

Decide who will provide the technical specialist advice on crimes.

Consider how the process will be recorded and reported.

Find a suitable date for all involved and when the Force is not using the files for their own review, which is currently in progress.

Ensure all taking part have the appropriate vetting level.
