August 2015

Dear Brian,

The Annual Report and the Police and Crime Plan for West Mercia 2013-2017

Thank you for the Panel's constructive consideration of both my annual report and the proposed variation to the police and crime plan at the panel meeting on the 21 July 2015.

I have received a copy of the formal minutes recording the Panels observations and comments on both documents and can confirm that I have addressed the query relating to the number of PCSOs (minute item 120, pages 7 and 8). The discrepancy was caused by a typographical error which has been corrected in the published version. All other points raised at the meeting are being addressed.

Please treat this letter as my formal response to the Police and Crime Panel representations on both the annual report and the plan.

In addition, as requested in minute item 121 I also enclose a breakdown of the outcomes for the 55,000 crimes recorded within West Mercia during 2014/15.

Yours sincerely

Bill Longmore
Police and Crime Commissioner West Mercia
