Warwickshire Police and West Mercia Police Estates Management Strategy

2018 - 2025

The alliance Police and Crime Commissioners

The Police and Crime Commissioners (PCC) own and are responsible for the property portfolio that the police operate out of. They have a duty to ensure that property portfolio is effective and efficient and delivers value for money on behalf of local communities.

Warwickshire PCC
Philip Seccombe

“

Protecting people from harm and keeping communities safe is the essence of policing and community safety in Warwickshire. I want our estate to be fit for purpose and efficiently support the delivery of police services.

”

West Mercia PCC
John Campion

“

Building a safer West Mercia... backing the force with the investment and resources to be responsive to changing demands.

”

Shared principles and vision 2018 - 2025

We are aiming for the most effective and efficient property portfolio to support effective and efficient policing.

We will explore alternative uses for redundant sites or dispose of them to reduce running costs.

This alliance Estate Management Strategy (EMS) will ensure the property portfolio continues to support the delivery of police services.

Transformation of services is vital to ensure all aspects of policing can meet changing demand and continue to protect people from harm. We will remodel the property portfolio to support new ways of policing as we embrace and adopt new technology and other changes across the alliance.

Collaboration between the two forces and with other partners offers new opportunities for integration and space sharing. Shared space will drive down the running costs of the property portfolio without reducing services. The introduction of the Policing and Crime Act 2017 offers an opportunity to transform co-location with other emergency services into collaborative ventures.

The One Public Estate Programme encourages co-location with other public bodies and third sector partners with the opportunity to provide seamless services to the public. We will work in partnership with others wherever possible to take advantage of these opportunities. We will only have new single agency buildings where there are sound operational reasons.

We will have regard to the views of the public we serve and partners in making decisions about our property assets.

Our property portfolio will promote greater information connectivity that underpins the introduction of smarter mobile working.

Buildings will provide a modern, fit for purpose and pleasant working environment reflective of a modern police force.

We will look to occupy only those assets necessary to support a modern police service.

Where assets are held for organisationally strategic reasons we will look to maximise income from them.

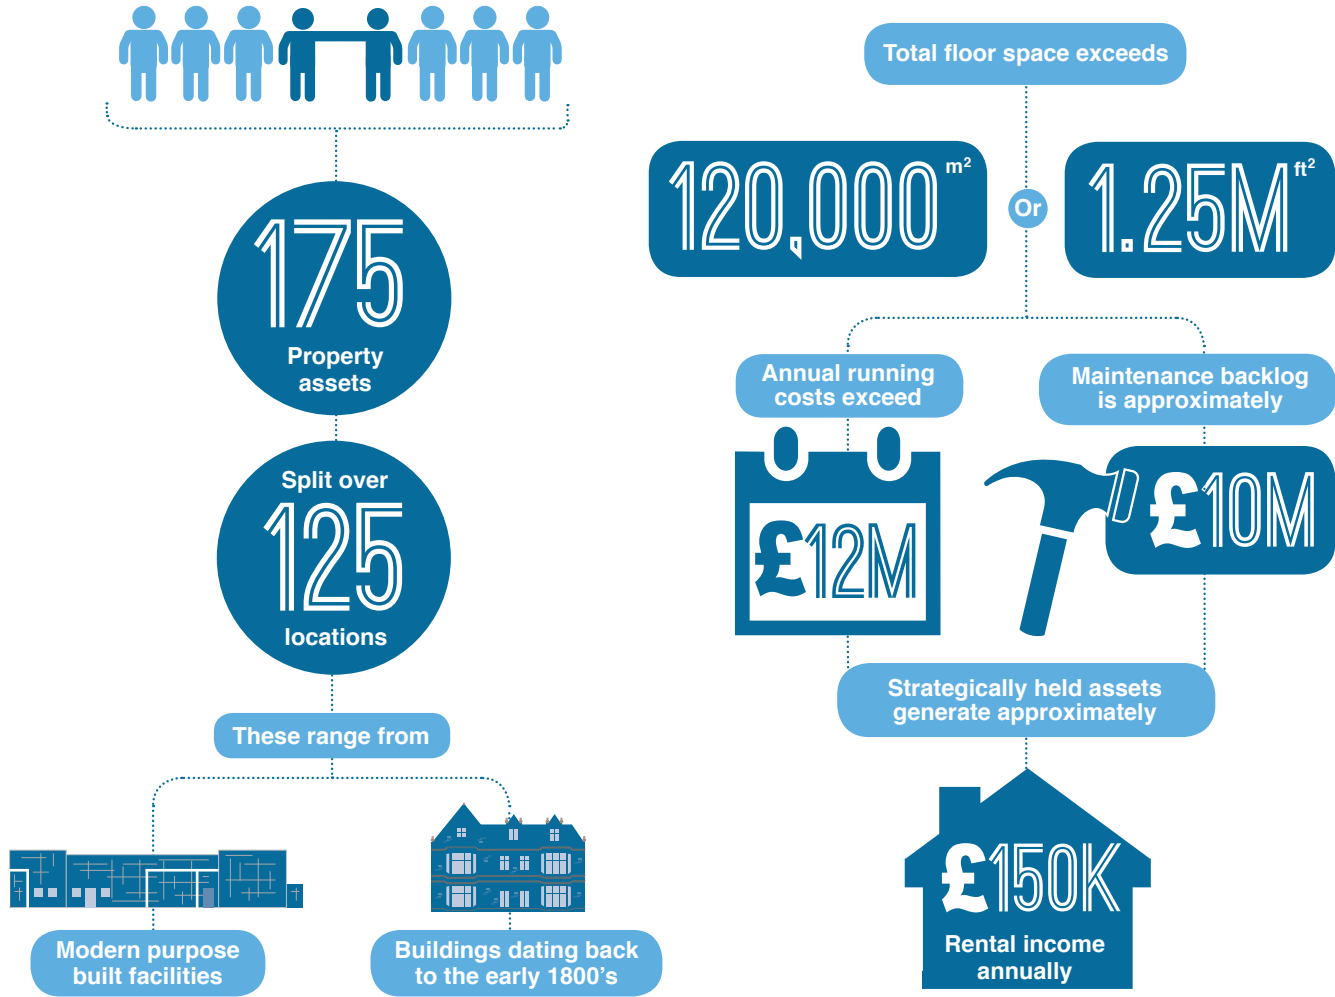

We will invest in the property portfolio to ensure it best supports policing demands where needed.

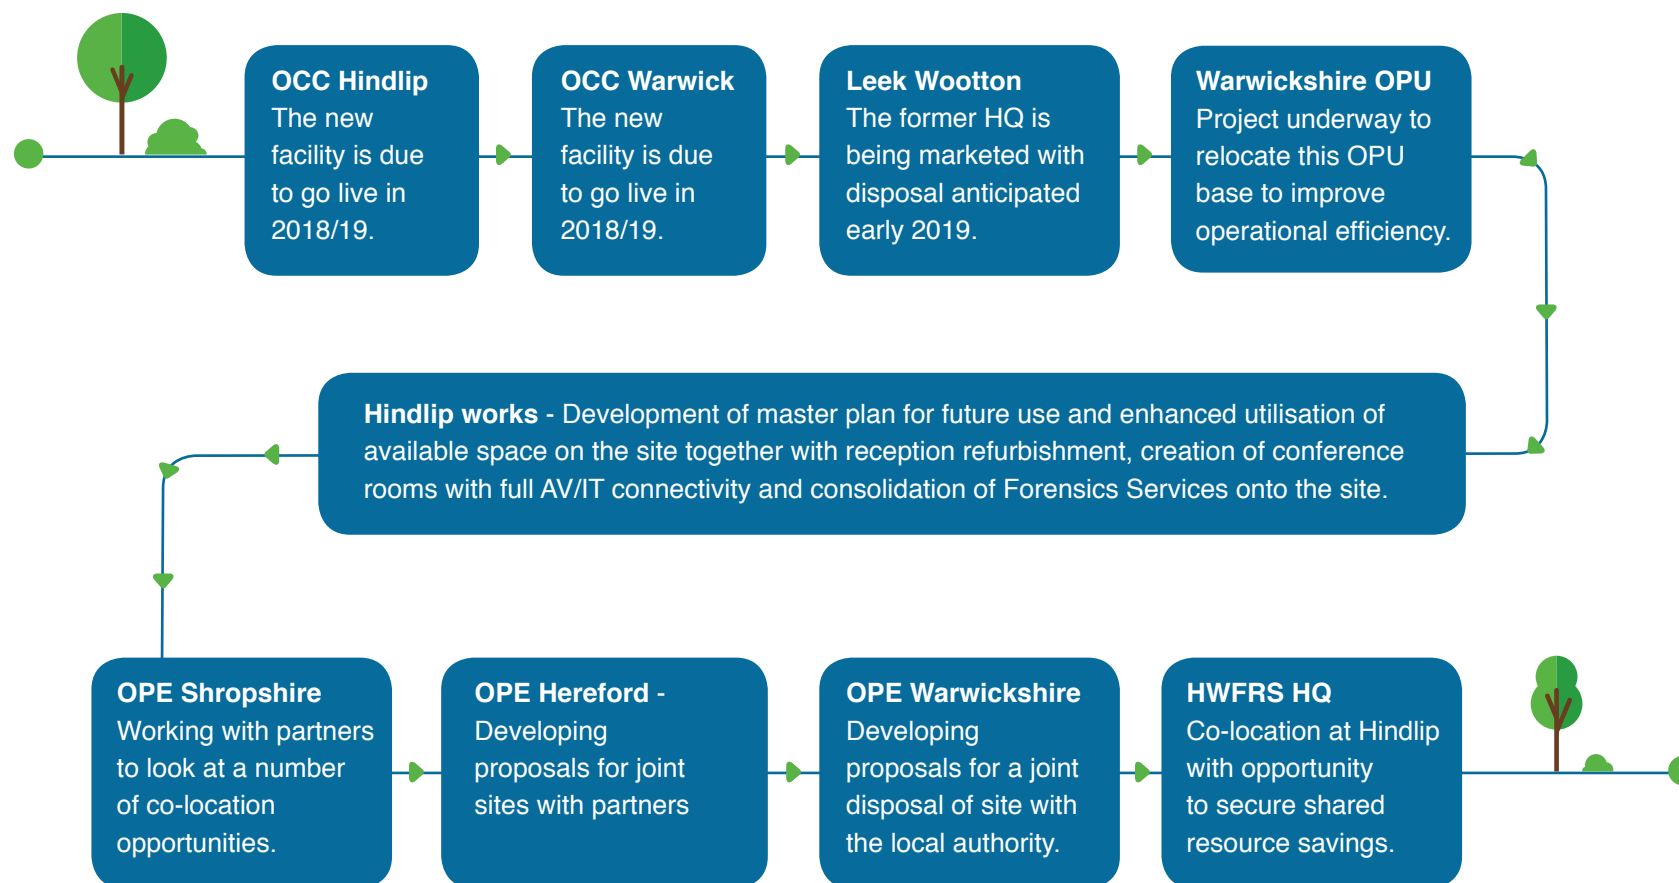

Warwickshire Police and West Mercia Police

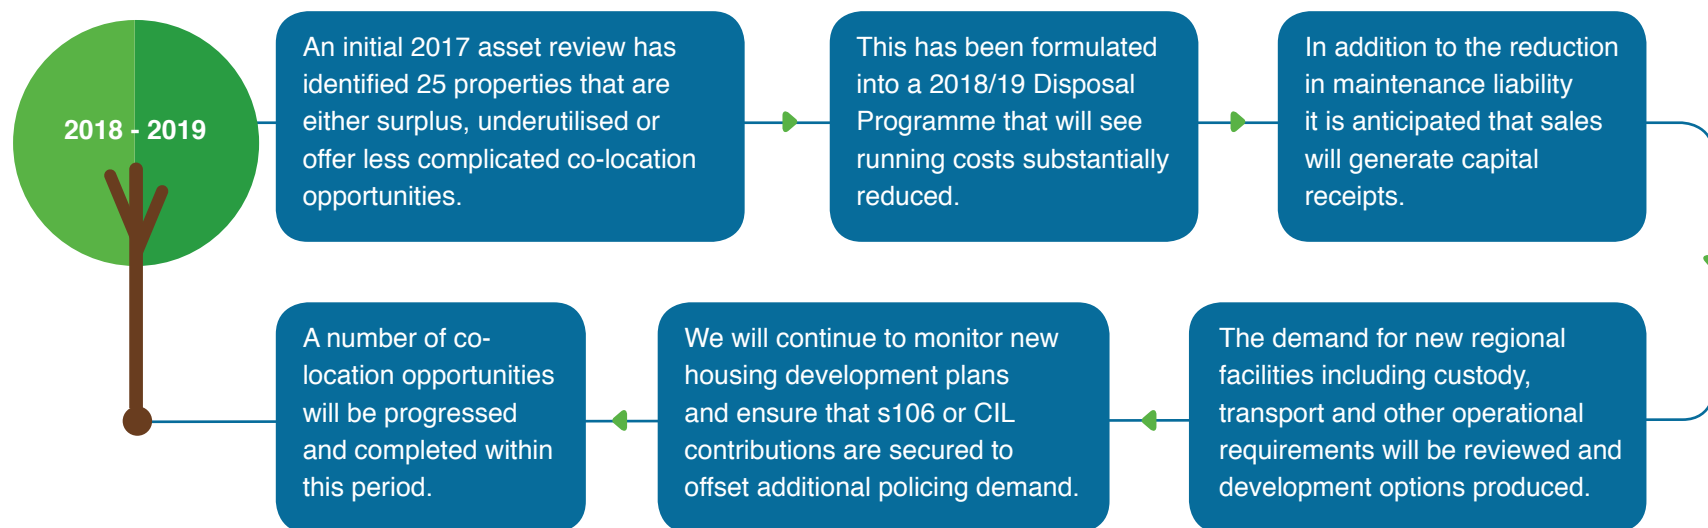

The current alliance property portfolio

Strategy 2018 to 2025 - major projects

Co-location with partners

We will continue to develop our network of potential partners and secure future co-location efficiencies in particular with:

- Fire and rescue services
- Health services
- Offender management and other criminal justice agencies
- Local authorities
- Multi agency hubs

We will not restrict ourselves to these partners, but will seek to maximise our property portfolio and the opportunities presented with any organisation that has compatible objectives.

Carbon Management and Energy Plan

2018 will see the development and adoption of a Carbon Management and Energy Plan.

All of our retained assets will be assessed for their energy and sustainability performance.

We will look to install LED lighting throughout the portfolio and consider solar PV and other energy efficient measures where the business case is supportive.

We will investigate and pursue all Eco Grant opportunities and take advantage of supportive funding available.

Property Management Systems

2018 will see the implementation of a new Property Management System by our estates management provider Place Partnership Ltd.

This will allow a far more accurate view of asset performance and allow far more detailed interrogation of asset data.

It will also assist with the planned maintenance programme.

Estates Delivery Plan

The Estates Delivery Plan will track the status of each individual asset against the overarching EMS.

This will be instrumental in formulating the Planned Maintenance Programme and using funds more efficiently.

It will also encompass any recommendations arising from the adoption of the emerging Carbon Management and Energy Plan.

Glossary

PCC	Police and Crime Commissioner
EMS	Estate Management Strategy
OCC	Operations Communications Centre
OPE	One Public Estate Programme
OPU	Operational Policing Unit
HWFRS	Hereford & Worcester Fire and Rescue Service
