

Official - May 2019

Go-Live date now aimed at the second half of 2019.

The Alliance's ICT resource is the critical enabler of both operational policing, supporting services and both forces' ability to change.

Both forces are in the process of reviewing and developing options for how they will operate post October 2019 when the current alliance agreement comes to an end

Investment and management support required in order to achieve and maintain UKAS accreditation within a number of Forensic Services areas of business and across some other Alliance functions.

The delivery of the financial savings plan set against an uncertain medium term political and economic climate.

The implementation and ongoing deployment of a successful strategy to retain the level of AFO's to a point that ensures compliance with the Strategic Policing Requirement.

The ongoing, consistent monitoring and understanding of factors that affect health and well being and the deployment of a consistent strategy to tackle the causes outlined.

Data compliance which, if not managed, provides inaccurate data which is used to formulate decisions and may breach legislation.

The risk that Athena will cause pressures across the organisation which may result in reduced performance, protection or staff wellbeing

The risk that we are unable to recruit sufficient student officers and deliver their training programme to meet the increased establishment requirements for the alliance.
