Dear Aled

Draft Annual Report 2021/22 of the Police and Crime Commissioner for West Mercia

Thank you for your letter outlining the Police and Crime Panel's response to my draft Annual Report 2021-22. In accordance with my statutory responsibilities my response to those comments is set out below.

Performance context – two hyperlinks, with a short explanation for each have been added to the foot note of the 'year in numbers' on pages 5 and 6. One link is to the equivalent page in the 2020 – 21 Annual Report and one is to Police Force Area data tables published by the Office for National Statistics. This dataset is updated quarterly and provides the number of police recorded crimes, percentage change from previous year and rate per 1,000 population by offence group, by Police Force Area.

Page 15 wording review – the wording on page 15 has been corrected.

The final version of the Annual Report with the amendments shown above, will be published on my website along with a copy of your comments and this letter.
